Subject: Submission of Internship Report.

Dear Sir,

It is my great pleasure to submit on The Structure of Dhaka Stock Exchange Ltd of Dhaka Stock Exchange as a part of my Internship program. I have closely observed different departments operations of Dhaka Stock Exchange in my internship period. I enjoyed preparing this report, which enriched my practical knowledge of the theoretical concept. I tried to reflect the practical operational aspects of the DSE, which is complementary to the theoretical lessons.

I am very much glad that you have given me the opportunity to prepare this report for you and hope that this report will meet the standards of your judgement.

Sincerely yours,

Akib Ahmed Khan

United International University
Acknowledgement

I am really grateful to have this opportunity and I want to thank the persons whose ideas, instructions, support and guideline help me to complete this report. I am also thankful to Dhaka Stock Exchange Ltd.’s officials and staffs for their friendly behavior and great cooperation. I also show my gratitude towards the persons whose books, working paper, journals and materials help me to write this report.

I am greatly appreciated and inspired by Mosabbir Ahmad, Faculty of Finance, United International University to write this internship report on The structure of Dhaka Stock Exchange. I would like to thanks Mr. Syed Al Amin Rahman, Deputy General Manager (DGM) of Human Resource & Admin, for giving me the opportunity to work on Dhaka Stock Exchange Limited and supervise me to enlarge my skills. My special thanks go to Mr. pathan, manager of human resource. I would also like to express my gratitude to all especially Mr. Shaid, deputy manager of Human resource, Mr. Rashid, senior officer of Human resource, Miss Tanzina, executive of Human Resource and Miss Ferdosi, junior Executive of Human Resource for supervising me at the time of my internship attachment with their best efforts.

Moreover, I am very much grateful to all the officials of Dhaka Stock Exchange. This report would not be possible without the cooperation of all officials of DSE. So my heartiest appreciation to close officials.

Finally, I would like to thank all other who’s strong support makes me able to complete this report.
EXECUTIVE SUMMERY

This report is made by the basis of my three months’ practical observation, knowledge and experience at Dhaka Stock Exchange Ltd.

This project will cover the complete knowledge about the main working of stock exchange. Financial markets first came to prominence during the 17th century at the start of the industrial revolution. The first financial markets came about in London.

The whole report on Dhaka Stock Exchange Ltd is divided into four chapters started with Introduction. An Overview of stock exchange, Dhaka stock exchange at a glance, Function of DSE, SWOT Analysis of DSE, Findings & Recommendation, Conclusion respectively of Dhaka Stock Exchange Limited.

Now a day’s stock market plays an important role in economic development. The main function of stock exchanges is to promote the movement of capital across the region, to increase investment opportunities and encourage optimum financing for firms irrespective of where the entity resides.

This report describes the main terms that use in Dhaka Stock Exchange. This project will describe the working of the stock exchange and will mainly emphasize on the structure of Dhaka Stock Exchange Ltd. This report also gives an idea what impact that Dhaka Stock Exchange create in entire economy of Bangladesh.

CHAPTER ONE
INTRODUCTION
BACKGROUND
Internship is the process of working of assistant to gain practical experience and skills in an organization. In order to expose the students to the actual working environment. Internship has been included as a compulsory requirement for the successful completion of four year BBA under United International University. BBA is a management program with the provision of twelve trimester comprising of 120 credit hours in Bangladesh.

Internship is an opportunity to observe, learn and understand the organization culture, acquire knowledge and skills in the respective field which helps the students in their further career development. It is carried out in the organization which suits the area of specialization.

Internship provides the opportunity to understand how the knowledge acquired through the lectures, group discussion and formal study is applied in real working situation. It is the best way of knowledge gaining as it provides an experience. Similarly assigned responsibilities during the internship period help to enhance the interpersonal and communicative skills and boost up the confident level as well.

As a student of BBA, Capital Market is good option for internship. Capital Market play an important role in modern economy. Capital Market is the institution which is engaged in security transactions. Capital Market is the crucial component for rising up the financial status of a nation.

Even though interns are not the employees of the organization, they are given an opportunity to work as if they are the employees. The interns do what the staffs of the organization have to do. However, they do not have obligations or authority over anything.

The internee did his internship in the Dhaka Stock Exchange Ltd. The internee was given the opportunity to observe and learn the functioning of the HRM, Accounting and finance departments.

OBJECTIVES OF THE STUDY
The general objective of the study is to get practical insights of general Capital Market. “DSE - A milestone for Economic Development” – the name of the paper defines the main objective. DSE is contributing a lot for the nation through market capitalization by creating investment opportunities for the deficit holders of the society from the surplus holder who have not such available sources of investments. DSE is performing the role of transferring capital for the overall
development of the nation. The main objective of the study is to gain practical knowledge about the activities of Membership Affairs Department of DSE. The specific objectives are as follows:

- To examine the trading system of DSE.
- To know growth, development, organization and management of DSE.
- To examine current issues of DSE.
- To evaluate trading order and settlement system of DSE.
- To identify the problems and prospects of DSE.

**RATIONAL OF THE STUDY**

In college, we learn organizational systems only in theoretical bases. Internship is the place where how theoretical knowledge is useful in real life scenarios. For that, students need to prepare resumes, write cover letters, and go through interviews as if they were applying for a job. This gives students valuable experience in preparation for employment. The internship allows opportunities for the development of practical skills in contexts where professional criticism is both immediate and constructive. It also furnishes students with opportunities to observe and understand connections between course work and skills needed to perform effectively in a given profession. Finally, internships aid in the identification of knowledge and skills essential to doing well in a particular profession. Since only students with a strong academic record are permitted to do internships for credit, the students of business studies want students to view the internship program as an incentive to perform well academically in all of their course work. Successful completion of an internship often provides students with professional confidence.

**SCOPE OF THE STUDY**

Generally, an internship consists of an exchange of services for experience between the students and the organization. Internship program is a good opportunity to show our learning skills that we get from university. Students can also use an internship to determine if they have an interest in a particular career. It helps to build curriculum vitae (CV) for the students.

**METHODOLOGY**

To conduct a study properly, designing of the process is essential because reliability and validity of the outcomes of a study depend on the reliable data and information. In this connection, some activities have been carried out to collect data and information.

To attain the objective, I collected data & information required. Those data & information were collected from various sources & then analyzed.

Collection of data & information:

Primary data & information:
• Observation & collection of data from different investors by asking them related question
• Conversation with the executives & officers of Dhaka stock exchange Ltd.

Secondary data & information:
• Annual report DSE.
• Monthly review of DSE.
• Several kind of academic Test-Book.
• Different publications regarding stock exchange function
• Price index

Visiting the websites:
WWW.DSEBD.COM

ORGANIZATION SELECTION

DURATION
The duration of internship period has been defined for 3 months by United International University. The intern has completed from 1st July to 30th September-2018 in Dhaka Stock Exchange Ltd. During this period, the intern has gained the experience of working at different departments of the DSE.

ACTIVITIES DONE IN THE ORGANIZATION

LIMITATIONS OF THE STUDY
While going through the internship program, it should be noted that period was very pleasant because of cooperation and trustfully access had been given into too many databases for updating. But as it was an internship program designed by the department of B.B.A course some limitations should to be mentioned from report preparation point of view.

There are some limitations I had faced during completing this report. These are:

1. This report is prepared on the basis of data available to me. So any kind of fault or error data would be a cause of misleading result to the reader of this report.

2. A huge number of data is given regarding securities market operation. For time shortage, it’s not possible for me to accumulate and represent all data in the report.
3. As DSE is a sensitive organization, any leakage of internal information may fall a great impact on market. So I was not allowed to access all information.

4. Employees of said organization are so busy that they cannot give proper time to cooperate internee.

5. Shortcoming of practical experience to comprehend the conceptual framework of this type of report.

CHAPTER TWO
INTRODUCTION TO DSE
INTRODUCTION
BRIEF HISTORY OF DSE
The necessity of establishing a stock exchange in the then East Pakistan was first recognized by the Government in the early 1952 when the Calcutta Stock Exchange prohibited transactions of Pakistani shares and securities. The Provincial Industrial Advisory Council of Pakistan formed an organizing committee very soon for the establishment of a Stock Exchange in East Pakistan. A decisive step was taken in the second meeting of the organizing committee held on the 13th March, 1953. In the cabinet room of Eden Building, various aspects of the issue were discussed in detail under the chairmanship of A. Khaleeli, Secretary, Commerce, Labor and Industries Department of the Government of East Bengal. The central government’s proposal on opening a branch of Karachi Stock Exchange at Dhaka did not find favor in the meeting as attendees of the meeting felt that East Pakistan should have an independent Stock Exchange. It was suggested that Dacca-Narayanganj Chamber of Commerce & Industry should approach its members for subscribing Rs. 2000 each to have membership card to be honorable member of the proposed Stock Exchange. It was decided that the location of the Exchange should be anywhere at Dhaka or Narayanganj or Chittagong. An organizing committee consisting of leading commercial and industrial personalities of the province was formed with Mirza Mehdi Ispahani as the convener in order to organize the proposed Exchange.

The chamber informed its members and members of its affiliated associations on the proceedings of the above meeting and requested them to intimate whether they were interested to be member of the proposed Stock Exchange. This was followed by a meeting held on July 07, 1953 at the chamber at which about 100 persons shown their keen interest in the formation of the Exchange. The meeting proposed 8 gentlemen to be promoters of the Exchange with M Mehdi Ispahani as the convener and authorized them to draw up the Memorandum and Articles of Association of the Exchange and to proceed for obtaining Certificate of Incorporation under the
Companies Act, 1913. The other 7 promoters of the Exchange were J. M. Addision-Scott, Mohamed Hanif, A. C. Jain, A. K. Khan, Abdul Jalil, M. Shabbir Ahmed and Sakawat Hossain.

It was also decided that membership fee would be Rs. 2,000 and subscription would be at the rate of Rs. 15 per month. The Exchange would be consisted of not more than 150 members. On September 03, 1953 a meeting of the promoters held at the chamber where it was decided to appoint Orr Dignam & Co. as the solicitor to draw up the Memorandum and Articles of Association of the Stock Exchange based on the prevailing rules of the Stock Exchanges in other countries and taking into account the local conditions. The promoters incorporated the formation under the name as the East Pakistan Stock Exchange Association Limited on April 28, 1954.

At the time of incorporation, the authorized capital of the Exchange was Rs. 3,00,000 divided into 150 shares of Rs. 2,000 each. The authorized capital of the Exchange was increased to Rs. 5,00,000 divided into 250 shares of Rs. 2,000 each by an Extraordinary General Meeting held on February 22, 1964. The paid up capital of the Exchange reached to Tk. 5,00,000 divided into 250 shares of Tk. 2,000 each by subscribing its 250th membership in April, 2013. The Exchange started its journey as a Demutualized Stock Exchange from November 21, 2013 with the Authorized Share Capital of Tk. 2500,00,00,000 (Taka two thousand five hundred crore) divided into 250,00,00,000 (Two hundred fifty crore) Shares of Tk. 10 each and the paid-up capital of Tk. 1803,77,65,000 (Taka eighteen hundred three crore seventy-seven lac and sixty-five thousand) only.

Although incorporated in 1954, the formal trading of the Exchange started in 1956 at Narayanganj after obtaining the Certificate of Commencement of Business. It was shifted to Dhaka in 1958 and started functioning at the Narayangonj Chamber Building situated at Motijheel C/A.

On October 01, 1957, the Stock Exchange purchased a land measuring 8.75 katha at 9/F Motijheel C/A, Dhaka from the Government and shifted to its own present location in 1959.

However, the name of the company was changed to East Pakistan Stock Exchange Ltd. on June 23, 1962. Again on May 14, 1964, the name of East Pakistan Stock Exchange Limited was changed to "Dacca Stock Exchange Ltd."

The trading of the exchange was suspended due to liberation war and resumed on August 16, 1976 after the independence of our country.

On August 10, 1998, the Stock Exchange introduced Automated Trading System and entered into the new horizon of modern technology based Trading System.
On January 24, 2004, the trading system of the Exchange integrated with the Central Depository System, a new hub of modernization of trading system replacing paper based shares with electronic based shares. The trading of ‘Government Bond’ started on January 1, 2005, which created new opportunity for the Exchange.

Direct Listing Regulations, 2006 was approved on April 12, 2006, which brought about a revolutionary change in the listing of securities in the capital market. Book-Building method, a new invention of the listing method of securities in capital market was approved in the year 2010.

DSE Broad Index (DSEX) and DSE 30 Index (DS30) developed by S&P Dow Jones Indices, a renowned Index Service Provider were introduced in the Exchange on January 28, 2013. DSE initiated Bangla Website in addition to English Website on February 18, 2013. DSE introduced “DSE Shariah Index” on September 25, 2013 to keep pace with the demand of the same. In addition, DSE Shariah Index (DSES), a newly developed and mostly operative Index was brought in the Exchange on January 20, 2014.

Instant Watch Market Surveillance Software developed by Trapets AB, a world famous capital market related software developer was installed on February 11, 2014 in the main stream of Surveillance System of DSE for surveillance of the transactions of capital market. X-streamINET the matching engine and FlexTP the Order Management System (OMS) were developed and installed by Nasdaq and Flextrade respectively, the world famous trading engine and OMS provider on December 11, 2014 for accommodating 2000 orders and 1000 transactions per second without any interruption. DSE launched Mobile APP “DSE INFO” and DSE-Mobile on November 25, 2015 and March 09, 2016 respectively and thus entered into the new era of digitalization for capital market.

On October 30, 2016, the ISO Certification Body, SGS Ltd. issued to DSE the ISO 9001:2008 and SGS Ltd. upgraded the said certification to 9001:2015 on June 8, 2018.

DSE obtained the Membership of WFE on June 06, 2017, which uplifted the image of DSE. Through this membership, DSE has established its own significant place among the leading Exchanges of the globe.

In compliance with the Exchanges Demutualization Act, 2013, Share Purchase Agreement (SPA) executed between Dhaka Stock Exchange Ltd. (DSE) and the consortium of Shenzhen Stock Exchange (SZSE) and Shanghai Stock Exchange (SSE), the Strategic Investors of DSE on May 14, 2018. DSE Shares were transferred to the Strategic Investors on September 04, 2018 and the representative of the consortium, MR. Xie Wenhai included as a member of the Board of DSE on the same day. DSE, with the relentless initiatives and association of strategic investors, is thriving to be a leading Exchange in this region.
VISION
To be the leading exchange in the region and a key driver of economic growth with state-of-art technology and world class service to ensure highest level of confidence among stakeholders.

MISSION
Proactive approach to keep pace with continuous technological advancement, and providing highest standard of service through efficiency improvement and introduction of new products.

Contributing to country's economic growth through creation of wealth, facilitating access to capital and penetrating untapped market.

Superior corporate governance to enhance confidence of investors, regulators, issuers and intermediaries.

FUNCTIONS OF DSE
• Listing of Companies (As per Listing Regulations).
• Providing the screen based automated trading of listed Securities.
• Settlement of trading (As per Settlement of Transaction Regulations).
• Gifting of share / granting approval to the transaction/transfer of share outside the trading system of the exchange (As per Listing Regulations 47).
• Market Administration & Control.
• Market Surveillance.
• Publication of Monthly Review.
• Monitoring the activities of listed companies (As per Listing Regulations).
• Investors grievance Cell (Disposal of complaint bye laws 1997).

DSE EFFORTS IN FY2017-18

The activities of DSE has brought a big change in the capital market area. In FY2017-18 DSE has fulfilled a number of strategic activities and achieved international recognition. The major activities are:

- Shenzhen Stock exchange and Shanghai Stock Exchange be the strategic partner of DSE
- Memorandum and Article of Association of proposed Central Counter Party Bangladesh Limited now at its final stage and BSEC approved the Memorandum and Article of Association
- Invention of DSE Mobile Apps for Android and iOS users
- Development of ISO 9001:2015 standard regarding quality Management Systems requirements
- Small capital companies are qualified investors offers by the rule of small capital Company
- New formation of ATB (Alternative Trading Board) rules at its final stage
- Nikunjo Building is almost complete to operate and hopefully all TREC holders can be joined in the membership Club

CHAPTER THREE

SWOT ANALYSIS OF DSE

STRENGTHS OF DHAKA STOCK EXCHANGE

- Number one stock exchange brand in Bangladesh
- Spread widest networks in the main cities in Bangladesh
- Capable to provide one stop service of the all branches
• Superior quality and perfect performance to their clients
• Well trained and qualified management team
• DSE believes in quality trading infrastructure
• DSE provides expert advice, supports its customer and provides customer base satisfaction
• Up to date with hardware infrastructure and software development for the eclectic trading
• Preferable Clearing and settlement process

WEAKNESS OF DHAKA STOCK EXCHANGE
• Weak IPO pricing model in DSE fundamentals. As a result, sponsors don’t earn more than the public investors
• Weak monitoring in surveillance over of price of share. As a result, share price increase unexpectedly and fall unexpectedly
• Lack of guideline process when market penetrate because of unexpectedly of price falling
• Lack of decentralize management to making crucial decision
• Need to develop internal audit control system

OPPORTUNITIES OF DHAKA STOCK EXCHANGE
• New brokerage house will be open in all the district in Bangladesh
• DSE is working to increase investment awareness to the investors so that they can take right decision for their investments
• The management and the directors are visiting other country exchange markets so that the experience and knowledge can be used in capital market of Bangladesh
• Settlement and clearing system is to be independent for less time period transaction settlement to more accountability and transparency
• More stable and equalize face value of securities
• Online trading system ate developing to enlarge the capital market for bigger dimensions

TREATS OF DHAKA STOCK EXCHANGE
• The demand and supply of the share is unstable in the capital market. So investors face hassle to find the supply of good shares. DSE also working to improve the situation and DSE seeking government support to control the overall situation
• There is political imbalance and investors got scared of investment after the market fall in 2010. As a result, DSE can’t reach up to the level market expansion
• Though DSE is the largest capital market in Bangladesh, the manpower may short to set the market in the desire position
FINDINGS
The positive and negative aspects of Stock Exchange according to my point view are:

POSITIVE ASPECTS
The positive aspects of Stock Exchange are:

• Net capital balance requirement redefined and enhanced 10 times
• Capital Adequacy introduced exposure of brokers not to exceed 25 times net capital balance
• Introduction of T+3 system
• Margin requirements strengthened
• BODs of Stock Exchanges restructured to include 50% independent directors
• Independent, professional Managing Directors appointed and removed with SEC approval
• Size of BOD reduced from 18 to 10 members. Chairman to be appointed by the BOD

NEGATIVE ASPECTS
The negative aspects of stock exchange according to my point of view are:

• Require improve risk management at the exchanges
• Develop a regulatory framework for online trading
• There is need for demutualization of stock exchanges
• There is need for further strengthen audit practices and enforce International Accounting Standards.

FUTURE PROSPECTS
RECOMMENDATIONS

CHAPTER FOUR
CONCLUSION
Day by day DSE is doing great job to improve the market and expending the capital market. Though DSE performing well, but there is some area where DSE need to be further improvement. The board of directors, the management team and all the employees works hard to achieve the selected goals.
Our political stability and the economy are in good shape. So the capital market has a great opportunity to expand the market and attract the good number of investors to do maximum future growth of the capital market.

DSE has a good financial position in FY2017-2018. The board of directors’ selection is pretty much amazing. SEC also decrease the number of directors to take decision efficiently and effectively.

DSE overall performance is quite satisfied. The management is working perfectly, but the DSE is too dependent on SEC. As a result, it is sometime cause trouble for DSE management. But good thing is DSE is trying their best to improve the market and challenging situation.
