Letter of Transmittal

March 27, 2018

To,

Md Mohan Uddin, PhD (Mud),
Professor, Finance
United International University
School of Business & Economics

Subject: Report Submission on “Internship report: The City Bank Limited.”

Dear Sir,

It is my pleasure to present the report on my internship experience in The City Bank Limited. It was an incredible ordeal for me to set up this report. I attempted my level best to put precise endeavors for the arrangement of this report. Any deformity may emerge as I am student in this angle. I have exhibited to make every last component critical to my theme and talked about under the setting of whatever I have gained from the course. It would be delight for me, if this report can fill its needs.

Thank You.

Sincerely Yours,

Nondisha Haque Nilful
ID: 111-131-239
Program: BBA
Major in Finance
United International University
I, Nondisha Haque Nilful, declare that, the internship report is prepared by me, after completion of three month of internship at “The City Bank Limited” as a part of my BBA program. It is my report and pursued under the supervision of Md Mohan Uddin, PhD (Mud), Professor, Finance, United International University (UIU).

I further affirm that the work reported in this report is original and no misinformation has been submitted to anywhere for any purpose.

Sincerely Yours,

Nondisha Haque Nilful

ID: 111-131-239

Program: BBA

Major in Finance

United International University
Letter of Authorization

This is to clarify that the internship report has been prepared by Nondisha Haque Nilful, ID: 111-131-239 from United International University and which has only been completed for the partial fulfillment for the bachelor of business administration (BBA) degree.

The report has been prepared under my guidance and supervision. This report supports the topic title and fulfills the entire requirements. I instructed her to prepare. Here by, I accept the report as the successful completion of the internship program. During the program she was sincere and attentive to her work and I wish her every success in life.

-------------------
Md Mohan Uddin, PhD (Mud)
Professor, Finance
United International University
School of Business & Economics
Acknowledgement

Firstly, I would like to express my gratitude to Allah for special blessings in completing the report. This is an exclusive intense of professional life. I passed and enjoyed the time of my internship, which helped me to prepare this report. The report on “The City Bank Limited” has been prepared to fulfill the requirements of BBA degree.

I am deeply indebted to my internship supervisor Md Mohan Uddin, PhD (Mud), for giving me the opportunity to prepare this report. He has provided me some important advices and guidance for preparing this report. Without his assistance, this report would not be a comprehensive one.

I am affluent that I received sincere guidance, supervision and co-operation from various respected people during preparing this report.

Lastly, I would like to give special thanks to my fellow BBA students and colleagues for their immense support with required information, beneficial advice and suggestions to accomplish this report.

Chapter 1: Introduction
At this era of globalization and high technology, the business of banking sectors has become more lucrative business. To coherence with this, bankers need huge professional skill besides technical basis with theoretical knowledge. Because of being a BBA student, I think bank is an appropriate sector for gathering practical knowledge. In order to enhancing the professional skill in banking sector, the university has endeavor a special training program that is called internship. According to the due instruction and necessary requirement, I have chosen City Bank for my internship because it is considered as one of bank of Bangladesh that can represent a total view of banking system and model of banking to me.

1.1 Background

As the requirement of my BBA completion, I was assigned to an internship program in City Bank Limited. In this connection, this report is prepared to undertaking my Professional skill as well as practical knowledge into theoretical and written format. This report is entitled to ‘Internship Report: City Bank Limited. (thecitybank,2018)

1.2 Scope of the Report

The report portrays the retail banking, activities and procedures of City Bank Limited. This report firstly defines the market situation Of City Bank Limited that will give us an actual scenario of City Bank Limited. This report will also outline the banking sector of Bangladesh. This report will give the opportunity to explore my excellence and can measure my skilled that I learnt as an intern from my internship. (thecitybank,2018)

1.3 Limitations of study

Though many problems had been faced in the path of conducting the report, I tried to prepare the report more realistic and accurately accepted by the authority. However, the limitations has been appeared are mentioned below.

- Short time makes me hastier.
- Shortage of information constrains my report short.
The policy of bank not disclosing the confidential data and information was one of the main limitations.

Insufficient records, magazines and publications as per my requirement.

Inability of analyzing capability does not make the report perfectly.

### 1.4 Methodology

This report on City Bank has been set up based on the understanding accumulated from my entry level position.

So as to set up this report, I have additionally gathered data from various branches of this bank. To set up a true and instructional report, I have contemplated the association's yearly information, sites and other important things. The data is gathered from two sources.

**Primary Sources:**

- The information was gained from the officers who are working in this bank especially the Branch manager of moghbazar branch—**HM Abrar Zaman**—by discussing with practice.

- The suggestions and instruction of the officers and employee in the method of interview, observation and work experience were the other primary sources.

**Secondary Source:**

- The City Bank Ltd. Annual report
- Balance sheet and important documents of this bank
- Related materials and different textbooks
- Website of City Bank Ltd
- Different internship report submitted by several students
- Newspaper, magazines are related to banking issues
- Brochures of different banks.
1.5 Objectives

**Primary** objectives of internship are to provide the pragmatic knowledge, which will expand the theoretical knowledge with a managerial efficiency.

It helps to achieve actual knowledge, perfect investigation, above discussion of known and unknown matter, techniques and experiences.

However, the objectives we can trace as follow as:

i) To present the guideline for searching numerous findings to solve the organizational problems.

ii) To include new information with logical ways.

iii) To identify risks and recommend to solve them.

iv) To realize what type of industry can contribute to the economic development of a country.

v) To determine the entire actual situation of the organization.

vi) To make more comprehensive solution of problems to increase the diversification.

vii) To prepare pragmatic report about entire management of organization.

viii) Another important objective of practical training is to implement the knowledge of practical life.

ix) To show about the profitability, liquidity and solvency.

x) To investigate the techniques those are used in decision making.

xi) To show about the conditions of the bank and its goodwill to the public.

xii) To identify managerial problems and eradicate those.

1.6 Significance

The significance of an internship is more than could think. The theoretical knowledge is acquired and the purpose is to apply this knowledge in the practical life so in internship. Internship program helps to implement the application of theoretical knowledge in practical life and internship program is designed so we can make our career more valuable. When we
can implement the theoretical knowledge practically, we are ready to enter in job phase.

So ultimately a internship program is a fruitful way of implementing the subject knowledge practically. However the significance of internship can be stated as follow as:
As internship program is the implementation of theoretical knowledge in practical life, it helps to boost the quality and effectiveness of the trainer.
We can only know the problems within an organization directly through subjectively, but we can know the nature of the problems and methods of solving the problems through the practical training. So, it is very necessary to identify the problems through the practical training to eradicate the problems. The trend of all activities of an organization is growing through practical training. To innovate new techniques of management, it will help us to prepare mentally for the professions. Internship acts are considered as guideline during the service period. Internship acts work as a bridge between subjective and managerial practices to make policy for the development of the organization.
From internship program, students are able to identify their limitations, shortages and practicability of their knowledge and can take necessary steps for reducing these limitations and shortage.
Chapter 2: Analysis of the Industry
Since my major was finance I decided to get experience from financial institution so made choice of banking industry. The banking sector is the most structured and disciplined where I could implement my subjective knowledge I thought. So before choosing the right place for my internship and I have also analyzed little bit of this vast industry.

2.1 Specification of the industry

A bank is a financial intermediary or a medium which sells financial products and appears in several basic fundamental forms:
A central bank issues money on behalf of a government, and regulates the supply of money in the market. The main function of a commercial bank is accepting deposits and after that channels these deposits into loaning exercises, either straightforwardly or through capital markets.
A bank is connected to the customers and deficits to customers and provides facilities such as capital surpluses on the world’s open financial market. A saving bank is well known in Britain as a building society and it only allowed borrowing and collecting money from the members of a financial cooperation. Banks provide safety and security of money and provide different services. These are loans, Credit and payment services such as checking accounts, debit cards and cashier checks.
Bank also offers investment facilities and insurance products. Financial industries have emerged different varieties of models for cooperation and integration among these industries and some traditional distinctions between banks, insurance companies and other securities firms have been diminished.
Despite of these changes, banks are maintaining and performing their primary role, “accepting deposits and lending money.”

2.2 Size, trend, and maturity of the industry

Managing an account division is viewed as one of the real areas in Bangladesh, which has tremendous commitment to the national economy. This area incorporates distinctive banks in different classifications.
With respect to, this industry can be grouped into four noteworthy classes. They are Nationalized Commercial Banks (NCBs), Specialized Banks (SPBs), Private Commercial Banks (PCBs), and Trans-National Banks (TNBs) (known as Islami Bank since 2001). The business keeping money framework is assuming the fundamental part in budgetary area of Bangladesh. Bangladesh bank is the national bank of Bangladesh and it is the central controller of managing an account segment.

Bangladesh has add up to 55 states possessed, private, remote and practice banks. The keeping money area comprises of 4 state-claimed business banks, 31 private business banks, 10 particular advancement banks and 10 remote business banks. The Grameen Bank is a particular small scale back foundation. They utilized the idea of microcredit insurgency and a noteworthy commitment to neediness lightening and strengthening of ladies in Bangladesh. Grameen Bank got Nobel Prize for these ideas.

After the freedom, saving money industry in Bangladesh had begun its trip with 6 popularized banks, 2 state possessed particular banks and 3 remote banks. Bank industry had accomplished noteworthy development with the passageway of private banks in 1980s. Presently, saving money part is principally two writes in Bangladesh. These are-

1) Schedule Bank. 2) Non-Scheduled Bank.

1) **Scheduled Bank**: Scheduled bank motivates permit to work under Bank Company Act, 1991 (Amended in 2003) are named as Scheduled bank. State-claimed business banks, private business banks, Islamic business banks, remote business banks and some specific banks are Scheduled Bank.
2) Non-Scheduled Bank: Non-booked bank is set up for uncommon and unmistakable targets and these banks are worked under the demonstrations that are ordered for getting together those destinations yet these banks can’t play out all capacities as like as planned bank.

Function of Commercial Banks of Bangladesh

Trend of Islamic Banking

With customary enthusiasm bearing managing an account framework, in 1983 Bangladesh went into an Islamic saving money framework (benefit misfortune sharing).

At present, out of 48 banks in Bangladesh, 6 private business banks are working undeniable Islamic managing an account framework and in addition 10 traditional banks are halfway engaged with Islamic saving money with 21 branches. Islamic managing an account division is kept indicating solid development since its origin in 1983 to June 2007 couple with development in the economy. The piece of the overall industry of Islamic managing an account industry as far as resources, financing and stores of the aggregate saving money framework has been expanded. (bankerguide, 2018)
The whole picture is given at Table 2. Add up to stores of the Islamic banks and Islamic keeping money branches of the regular banks was at Taka 286.5 billion at end June 2007. This was 23.6 percent of the deposits of all private commercial banks and 14.3 percent of the deposits of the total banking system at the end of June 2007.

Total investment of the Islamic banks and the Islamic banking branches of the conventional banks stood at Taka 265.4 billion at end June 2007. This was 26.9 percent of all private banks and 17.2 percent of the total banking system of the country (Bangladesh Economic Review, 2010).

Contribution of Commercial Bank in Bangladesh

- Promoting capital formation.
- Investing in new enterprises.
- Promoting in trade and industry.
- Agriculture development.
- Different savings balance development.
- The economy activity influencing.
- Implementing monetary policy.
- Export promotion cells.

Expansion of Bank Branches of Rural Areas

The admitted strategy is taken by the administration for advancing money related consideration has seen little acknowledgment as private and outside banks have gained barely any ground in building up branches and building up the segment in remote and provincial regions of the nation however they control just about 75 for every penny of the managing an account part.

For instance, between February 2008 and December 2012 the level of branches of bank in rustic regions diminished from 57.94 to 57.20 percent, though the offer of branches of bank in urban territories expanded from 42.06 to 42.80 percent. There have divergence between the level of responsibility of state claimed business banks and that of private and remote business banks.

As of December 2012, for instance, 63.97 percent branches of state possessed business banks were arranged in country zones, rather than just 38.08 percent branches of private business banks. The outside banks presently can't seem to build up any branch in country regions as of December 2012 (Bangladesh Economic Review, 2013).

2.3 Seasonality

Seasonality this bank is usually busy before lunch hour and also before and after weekends. The seasonality of the bank during the occasions like Eid, Puja, PohelaBoishakh, Christmas, New year, etc. in this period the bank go under pressure.
2.4 External economic factors

Since the global economy is moving towards recession, Bangladesh is no exception. The economic environment is also unstable and uncertain in Bangladesh. **THE CITY BANK LTD.** has to operate their functions within such economic environment.

The aggregate demand and money supply of the economy have great influence which is affecting the banking sector. In Bangladesh, national savings rose slightly which signifies the slow growth in bank deposits and also below international standards. The low per capita income, high dependency ratio, urbanization, lack of proper infrastructure in rural areas and inflation leading to rise in prices are the causes of low savings. Inflation becomes high due to high price of foods which offset the demand management policies.

Therefore, the high inflation is causing the poverty scale and the productive capacity stressed. Hence, **CITY BANK LTD.** is affected by all this facts related to Bangladesh economy as it performs its business in this country. ([financialexpress,2018](http://www.financialexpress.com))

2.5 Technological factors

Technology advancement has developed many opportunities for all type of industries. Automated teller machines have replaced the conventional tellers and whole banking systems have been automated assuring transparency in the system because of consumer trust which has been gained by consumers. The internet has created new platforms and provided new avenues to work and online banking system is becoming a common phenomenon in the west and also it is gaining popularity in Bangladesh. Many telecom organizations and mobile phone operators are collaborating with the bank to touch base with the customers even more efficiently and conveniently.

2.6 Political, legal and regulatory factors

Political factor: The political instability that the country has suffered throughout history and still affecting the economic development of the country and also affecting the general
condition of Bangladesh as well as foreign investors and other multinational companies and other countries. Ultimately Bangladesh Bank, the central bank of Bangladesh supervises and maintains all activities of local and foreign banks. Considering the political instability, foreign investors hesitate to keep their money as they are afraid of frauds. (e.g. Recent corrupted activities in Sonali Bank which is nationalized bank) are corrupted and the culture of Bangladesh is popular for its bad and unorganized trends.

Also other political violence’s such as “HORTAAL”, “BOLOKADES” also hamper THECITY BANK LTD. banking activity. (bdlaws.minlaw,2018)

### 2.7 Barriers to entry

**Threat of new entrants:** The information technology with its advancement has significantly minimized the barriers to entry in the banking industry. Because of the adoption of Internet banking, distribution channels are now not limited to traditional branch networks. Prospective customers all over the world could access the internet and search for banks are offering the highest interest rates or services with the best features. Furthermore, new banks will also be able to compete by using IT to reduce their cost and extend their distribution channels. Another factor that reduces the barrier to entry would be the low switching cost, for an example, the transfer of credit card balances from one bank to another bank.

### 2.8 Supplier Power

Bargaining power of suppliers/depositors: Generally, IT has increased the bargaining power of depositors. The development and the use of telebanking and online banking has empowered depositors. Depositors are able to use the internet to determine which bank is offering the highest interest rest and deposit their money.

On the other hand, customers look for lowest interest rate while searching for loans. Thus, price sensitivity and the number of substitutes available for depositors have expanded together in the industry.
2.9 Buyer Power

Bargaining power of buyer/customers: Bargaining power of customers is relatively high, as switching costs are low to leave City Bank Ltd for the customers and receive banking services from other banks. Foreign banks such as Standard Chartered Bank, The Woori Bank Ltd., Bank of Ceylon etc. have entered the market and thus add to the local banks thus serving as the current competitors.

2.10 Threat of Substitutes

**Threats of substitutes:** The banking industry is facing an increasing number of substituted although the deregulation has brought massive mergers, acquisition, these are threat of substitutes.

It occurs because of the ability of modern telecommunication is to eliminate distance that often hindered foreign banks with no branch networks in local markets. Although there don't have enough substitutes available. The government does not have proper facilities and does not capable to come up with any saving schemes to attract the general public but now a days the reduction of substitutes from banking industry is necessary.

2.11 Industry Rivalry

There is a new trend in banking industry. Foreign and local banks are competing even more directly with one another over the same consumers group.

Foreign banks are the direct competitors of THE CITY BANK LTD. that are striving for the same market share and customers. In addition, local banks have a long-term trust relationship with their customers, which still provide them an edge. The local banks are fast to imitate. The fight between competitors are increasing because the banking system is becoming more transparent and the imitation is easy.

Their target segment is upper middle and middle-middle class consumers so that they are trying to capture these segments but currently they are the consumers of other multinational banks. With their relatively low interest rates charged to the customers and higher interest payback rates compare to CITY BANK LTD., they are strong threats as they have extremely
lowered the switching costs to the customers.

### 2.12 Summary of challenges and opportunities

**Problems of the banking sector of Bangladesh**

Issues of saving money division are across the board and it isn't just identified with managing an account framework. The administrative element ought to be autonomous however responsible.

Prudential control ought to be constrained to store taking foundations. It is unmistakably isolated from non-prudential control. Now and again banks need to confront the issue of lower benefit and it might lessen the assessment. Along these lines it makes a follow on financial framework where bank is considered as the main source and method for gathering charge under substantial duty unit of NBR.

In addition, the income target may confront issue from another side where bring down development of credit may influence speculation and development and also charge accumulation.

**Potential outcomes of keeping money division of Bangladesh**

There are tremendous conceivable outcomes and wellsprings of improvement of the saving money industry in Bangladesh. These are beneath:

In Bangladesh, managing an account segment has an extraordinary chance to be the significant area of the national economy. Bangladesh has countless. This favorable position may increment and quicken the development and development of saving money part in Bangladesh. Managing an account area of Bangladesh has the capacity to guarantee the best possible nature of items and administrations according to the necessities of worldwide market. There are ten outside banks dynamic in Bangladesh, yet no Japanese bank yet. So there have tremendous prospect for Japanese bank to open their branch in Bangladesh.
Chapter 3: Analysis of the Organization
The City bank is the first private bank of Bangladesh and they are operating their business since 1983 under the entrepreneurship of twelve prominent and leading businessman of the country with an authorized capital of Tk. 1.75 billion. Bringing a qualitative change in the sector of banking and financial management was the noble intention behind starting the bank. Today, the City bank is serving their customers at home & abroad with 86 branches spread over the nation and around three hundred oversea correspondences covering the whole significant urban areas and business focal point of the world. The administrations that the bank giving are incorporating wide differentiated zones of exchange, trade and industry which customized the particular needs of clients and recognized by particular trait and outstanding level of individual consideration and provoke. Throughout the years, this bank has extended the ranges and variety of its administrations.

The City Bank Limited has just presented some new managing an account items and administrations, for example, Duel Currency Credit Cards, ATMs and Online programming for keeping money administrations which have just made fascination among the customers. The bank will present some extra offices, for example, continuous Internet, SMS and Phone Banking frameworks with all cutting edge conveyance channels at an early date. For critical execution, This Bank has earned national and worldwide acknowledgment.

The City Bank Limited was twelfth bank of Bangladesh among 500 banks in Asia and its benefits, store and benefit were assessed by "ASIA WEEK" In the Year 2000. Other than that, The City Bank got the "Best Ten Company" grant from the Prime Minister of the People's Republic Of Bangladesh. City bank is working their exercises in Bangladesh and it is one of the most established private business bank of Bangladesh.

City Bank does not have any desire to take after the conventional, topographically oversaw, decentralized; branch based business or benefit display promotion they are working and dealing with their business and operational exercises vertically from the head workplaces through four unmistakable business divisions. They are Corporate Investment Banking Retail Banking (counting cards) SME Banking and Treasury and Market Risks Under a constant web based keeping money stage, these 4 business divisions are upheld by a Smart IT and tasks setups or a strong administration conveyance.

Such concentrated business fragment based business and its working model are guaranteeing
specific treatment and benefits and giving these administrations to various client sections. The bank presently has 86 online branches and they are spread over the length and expansiveness of the nation that incorporate a completely fledged Islamic Banking branch. Other than these conventional conveyance focuses, the bank is additionally engaged with elective conveyance territory. It has 26 ATMs of its own.

ATM offering course of action to an accomplice bank has given 225 ATMs set up, SMS managing an account, and web saving money et cetera. Its client call focus will begin its task soon and they have an arrangement to have fifty claim ATMs to the finish of the present year. In Bangladesh, city bank is the primary bank which has the office to issue Dual Currency Credit Card.

The bank is filling in as the main individual from VISA universal and they have the office to issue both nearby cash (Taka) and outside money (US Dollar) card constrains in a solitary plastic. City bank is giving VISA Debit Card to back out the checks and it is another popular product of City bank. The branches of City bank are created by its astounding base of 400,000 retail customers and providing their best services. The VISA Prepaid Card for the travel sector is currently underway to launch.

They are additionally offering an extremely customized and amicable client benefit. It is utilizing an altered administration magnificence display called GAP (Graceful-Appropriate-Pleasing) that is centers around guaranteeing clients fulfillment by setting benchmarks for the workers’ disposition, conduct, reality level, precision and courses of events of administration quality.

City bank is the biggest bank of Bangladesh. Right now they have a solid plan of action that vigorously bolsters and empowers the development of the bank and its Retail and additionally SME keeping money. The bank is creating on its approach to opening numerous free SME focuses the nation over inside a brief span. They bank is likewise working for the specialists' remote settlement business and they are attempting to give the best administrations. City bank likewise keeps up the stream of the supply of settlement.

City bank has solid tie-ups with the real trade organizations of Bangladesh from where a huge number of person's settlements gone to the nation in consistently for payment through bank's substantial system of 86 online branches. The senior administration and current group
pioneers of the bank are procured from other multinational banks and in addition associations and they have predominant administration abilities and learning and additionally involvement in their "particular" territories.

In this year, City bank is praising its 25th years of excursion with the aspiration of turning into the market pioneer and the no.1 private business bank of the nation. The recently propelled logo and the result line of the bank are including new esteem and they are considered as one beginning advance towards achieving that point.

---

### 3.2 Trend and growth

**City Bank (City Touch)**

City Bank is one of the top bank among five oldest commercial bank in Bangladesh and it is also one of the oldest private commercial bank of Bangladesh. To make the banking more easier, faster, more secure and convenient to the clients, City Bank invented and introduced City Touch digital banking app to their customers. This banking app not only makes the old consumers more attached to City Bank’s banking system, but also it pushes many new customers migrate their accounts to City Bank because of the app of CBL that is convenience and is wonderful in performance.

**Features that City Touch app contains:**

- Fund transfer and account details with summarized version Deposits, loans and card management.
- Customer service request through app personalization, customization and transaction security check by customers.
- Printed Account Statement is used in the form of short & for a particular period.
- Two-factor authentication (2fa) & user security for highly secure service.
- User request for user interface service provides detail product list and product information via I banking app.
- Instant bills payment such as tuition fees, mobile phone bills, insurance premium, club payments, internet bill payments etc. can be paid through the app.
- Internet shopping is creating opportunities for over hundreds of leading retailers across Bangladesh.
• Services checkbook requests, stop cheques, activation or blocking cards and card PIN changing are available through the app and the air tickets can be purchased from top domestic airlines such as Novo air, Regent Airways and US Bangla Airlines through the app.

• Bill payment for any Visa, Master or Amex credit cards can be provided in Bangladesh by the app.

• Finding nearest City Bank ATMs and branch locations on-the-go. Money can transfer to VISA debit cards for 18 enlisted banks.

• Scheduling payments are available for specific dates. It has all these amazing features but still there are few improvement scopes for this application, which is: To make the app even more fast.

• To make the app even faster. To make the inter page change time a little less

• *Rating: 4.6 (Google Play Store)

Product preference of City retail:

FINDINGS:

The City Bank Limited has been performing very well. The CBL has a steady growth in almost every sphere and CBL is working to reduce non-performing loan. CBL is committed to become the leading bank of Bangladesh. No doubt, this is the sign of good management. However the system of proposal and appraisal of City. In appraisal system, the analysis of competitive position in the market is not focused while doing appraisal system because of lengthy lending process, lack of monitoring the credits, shortage of efficient manpower and Lack of documentation. The product appraisal is done based on customer and any comparison is not done with other product. The supplier’s influence is overlooked. Because of the, unavailability the credit demand assessment is not properly done.

3.7 Steps/ strategies to meet the challenges and opportunities

Strategies of CBL:

CBL mainly practices market-arranged vital arranging, creating and keeping up a fit between the authoritative targets, aptitudes and assets. The point of these methodologies is to shape and reshape the managing an account industry and its offices with the goal that they can accomplish the objective benefit and development.

The vital arranging of CBL primarily comprises of two hierarchical levels – Location based
methodology and Business Level Strategy.

Area Based Strategy:

Since the development and benefit of the business to a great extent relies upon the areas of branches where the huge centralization of different enterprises are included. CBL's principle quality is its area-based technique.

The 86 branches of CBL are separated into six unique districts, which are:

1) Dhaka Division, 39 branches.
2) Chittagong Division, 15 branches
3) Camilla Division 06 branches
4) Sylhet Division, 09 branches
5) Bogra Division, 10 branches
6) Khulna Division, 07 branches

Business Level Strategy:

THE CITY BANK’s business system is to persevere through its retail business in the market as it takes after a preservation loaning approach. In any case, the bank produces critical measure of benefit from its Retail saving money and SME managing an account administrations.
Chapter 4: Internship Experience
4.1 Position, duties, responsibilities

**Position:** Service Quality Ambassador.

**Duties:** As an intern, I had assigned my duties from The City Bank Limited head office and placed to branch banking accordingly. So, my ultimate duties were ensuring the level of customer satisfaction and reporting the findings to the head office.

Internship not only provides excellent learning opportunities for us but also creating networking opportunities and makesour future appealing, I balanced my assignments and job responsibilities effectively and tried to work beyond my duties.

Here is the shortlist from my duties-

**1st Month** - Assigned with customer service department and card service.

- Learnt about account opening progress and how to fill up KYC (know your customer).
- Tried to relate the happenings with my knowledge.
- Asked the senior colleagues about any query to expand the experience.
- Learnt about all the products and services by own.
- Learnt about cards service provider and card products.
- Surveyed customer satisfaction and collected data talking to them.
- Input the collected data in excel format and sent it to Service Quality Officer in weekly basis.

**2nd Month** - Assigned with branch operation manager.

- Learnt about compliance issues and monitoring.
- Assigned with teller section and learnt about cash and cheque transaction.
- Surveyed customer satisfaction and sent it to SQO weekly.

**3rd Month** - Assigned with Relationship Managers.

- Learnt about retail loan and Small Enterprise Loan (SME)
- Learnt to fill up Credit Information Bureau (CIB)
- Finally dispatched all the records of quality of service, customer feedback collected throughout the internship program by me and recommendations to Head Office.
Responsibilities:

- Acknowledge customer’s presence immediately.
- Proactively greet customers.
- Listen carefully and pay attention to their requirements.
- Direct the customers to the respecting service desk/counter.
- Offer customer a seat.

4.2 Training

The intern had been given training regarding the job responsibility. – we had got 3 meetings in 3 months at board meeting room in city bank head office. The service quality heads discussed and took feedbacks from us and also asked any recommendations. The responsibilities were discussed in details by the heads of the department. We also learnt how to improve customer service and developing skills.

4.3 Contribution to departmental functions

Contributed in customer service and assisting the associated managers (relationship managers, customer service managers, operational managers)

4.4 Evaluation

We had been evaluated by our overall performance. After completion of our internship period a form is filled by my supervisor to evaluate my performance.

I had been graded on-

- Dress code: The formal attire has been followed. As I am female, professionally Shari is highly preferred to formal color of other dresses.
Interest in assigned tasks: In the period of my internship, they highly judged my interest of assigned task.

Ability to learn: They justified my capability of learning what wanted to teach me.

Ability to work with others: They encouraged me in teamwork. Definitely, teamwork can give a perfect work.

Ability to communicate: How much I was communicative they assumed in the period of work.

Ability to work independently: They assigned me a task and insist me to do the work independently.

Ability to manage time: In the period of internship, I needed to maintain the time very tightly. I learnt how to manage time perfectly.

Ability to work under pressure,

Present ability & dependability: Presentation skill is an important part of career that I learnt very much in the program. I performed my task in teamwork not depending on others.

Personality & maturity: In the time of internship, I strongly build my personality and I found me in the maturity level.

My supervisor graded me on average 5.00 out of 5.00 for the above qualities. The aggregate grade was also made for my positivity and for learning interest.

### 4.5 Skills applied

The skills that are applied very much in the program

**Time management**: The bank is mainly depending on time management. Because, a huge amount of customer come and huge number transactions occur in a day that are handled and perfectly served within the time.

**Efficiency**: All the services are provided very effectively within the time and to the point. How a task can be done rightly is learnt in the program.
4.6 New skills developed

✓ Disciplined lifestyle.
✓ Working with professionals.
✓ Expertise to manage time to work efficiently.
✓ Able to work under pressure.
✓ Understood the corporate networking and business.
✓ Got idea about the industry and how it functioning.
✓ Learnt data collection.
✓ Made network with customers that might be helpful near future.

4.7 Application of academic knowledge

In the BBA program, especially the courses of finance and banking are highly applied in the period of internship. I applied mainly the Bank management theories. I got better understand about general issues such as how bank operates from “Management of the Financial Institutions”, how bank is audited its performance from “Financial and Security Analysis”, how corporate world do business with bank from “Corporate Finance”, and so on.

Though in this short time, I could not explore all of my learning, but I’ve learnt the fundamentals which will help me in long run career.
Chapter 5: Recommendations
5.1 Recommendation for improving departmental operations

After completing my internship by analyzing much information and pertinent documents, I can recommend CBL that

i. The account opening procedure should be easier.
ii. Cash payment and cheque clear should be faster.
iii. A smart and spontaneous 24 hours customer service should be used.
iv. The ATM service should be developed.
v. More promotional tools should be in forced to popularize the banking.
vi. The bank may start mobile banking with agent banking.

vii. The charges and fees should be considered again by matching with customer’s expectation and that of competitors.

5.2 Recommendations for improving self-performance

The reasons that are why must regret because of my shortcomings are given below:

First of all I should be more careful and attentive in the period of my internship period.

Secondly, I needed to be more organized in the teamwork.

Thirdly, I should take more preparation before my presentation.

Fourthly, I should prefer more formal to informal in the management of services.

Finally, I need to take another internship to be more practical that can enrich my knowledge and capability and can increase my maturity.
Chapter 6: CONCLUSION
The City Bank is considered as a reputed bank in Bangladesh. This bank is structured to operate in both local and foreign market. It has many experienced and qualified human resources who can work for meeting the opportunities. They work to make opportunities into strengths.

The bank has to remove its weakness and enrich the sectors. As it was the pioneer in introducing American Express Credit Card (AMEX), it may introduce more advanced services in the product categories. Depending on customers demand and savings the bank introduced four new deposits and one DPS skim.

It has set up retail finance center, collections management unit etc. In my internship period, I tried to develop my knowledge as much as possible. As I have tried to cover most of the sections and department, I have no depth knowledge about all the activities and functions of the divisions because of time limitation and confidentiality of banking system. After all, It was more satisfactory for me. The staffs of this bank are very cooperative.
Chapter 7: REFERENCES

Chapter 8: Appendix
DIARY OF MY DAILY ACTIVITIES DURING INTERNSHIP PERIOD:

Day 1- Lengthy conversation with my supervisor, Branch Manager; had general conversation. Then, he introduced me with everyone at work.

Day 2- Introduced with the people by myself and quick observation of their general roles.

Day 3- Shared my traditional knowledge and future objectives

Day 4- A crash course on CBL’s business structure.

Day 5- Introduced to the people I’ll actually be tasking with.

Day 6- Started to interact with the walk-in customers.

Day 7- Surveyed the customer as I was assigned to do.

Day 8- Customer Survey

Day 9- Lengthy conversation with my supervisor, Branch Manager; educated me about the work environment, concerns, disciplines, etc.

Day 10- An explanation of what the team members act like and how they fit into their work world.

Day 11- Attempted to ask customer servicers what they really do and observed their interaction with customers.

Day 12- Shadowed the customer servicers again.

Day 13- I was often left alone and utilized this time reading journals and browse CBL’s websites

Day 14 – Surveyed customer satisfaction and sent it to SQO weekly (did for 2 weeks as I couldn’t submit the survey on prior week)

Day 15- Customer Survey

Day 16 – Learnt about the card service provider and card products.

Day 17- Familiarized with photocopy machine as I didn’t know how to use it.

Day 18 - Learnt about the electronic queue management service (CityQ) and how to operate it.

Day 19 - Tried to assimilate about how to open an individual bank account.

Day 20 - Filled up a form to open an individual account by myself and gathered all the necessary information; finally approved by my supervisor
Day 21 - Learnt the complete process from account opening form to a successful bank account opening.

Day 22 - Learnt to browse city touch service.

Day 23- Learnt about compliance issues and monitoring.

Day 24 - Long conversation with the operational manager and shadowed him; educated by the operational manager about importance of operational activates.

Day 25 - Met the internal auditor and observed his role; understood the idea how organizations performance evaluated from conflict of interests.

Day 26 - Surveyed customer satisfaction and sent it to SQO weekly.

Day 27 - Networking events with my fellow interns and newly joined executives, and the service quality team at head office; had a long sitting meeting with the happenings.

Day 28 – Started conversations with the relationship managers to get idea about their responsibilities and how the loans (assets) come from individuals, corporations, FIs, and governments. Also, how the interest rates affect the loans.

Day 29 - Shadowed the RMs and observed their business strategies. Also, I had learnt about car loans, individual loans, personal loan, retail loans, SME loans, home loans, etc.

Day 30 - Learnt about the one of the lucrative product AMEX card and its pros and cons. Also, I had conversations with the AMEX users.

Day 31 – Customer survey

Day 32 - Surveyed customer satisfaction and sent it to SQO weekly.

Day 33- Learnt to fill up loan applications and Credit Information Bureau (CIB)

Day 34 – Shadowed teller section and learnt about the cash management, cheque transaction, vouchers, etc. Also, get the idea how they make calculate the total transaction end of the day.

Day 35- Started attending office wide meetings to get idea of corporate culture; they’re very welcoming and environment friendly.

Day 36– Customer survey at cash counter

Day 37 - Surveyed customer satisfaction and sent it to SQO weekly.

Day 38 – observed the FDR section and also opened an FRD account for me by myself.

Day 39 – Assigned a task from customer service manager to find the dormant files from a list. Instruction was given so I started to find the dormant accounts from running year.
Day 40 – Past dormant files were disorganized, so I was requested to organize the files and change the old tags; I renewed the file information as differentiated dormant and running accounts’ information.

Day 45 – Customer survey

Day 47 – Surveyed customer satisfaction and sent it to SQO weekly

Day 48 – assisted customer servicers to open customers’ accounts including KYC

Days 49 – account opening as above

Day 50 – Loan applications form fill up

Day 51 – CIB form fill up

Day 52 – Customer Survey

Day 53 - Surveyed customer satisfaction and sent it to SQO weekly

Day 54 – account opening for AMEX card

Day 55 – customer service executive regarding card service was absent, so I had to take care of the customers providing card related queries and so on.

Day 56 – tried to make a start on my internship report but daily tasks were really time consuming, so asked for less daily task and tried to utilize downtimes to draft my experience.

Day 57 – I managed to redo everything and rewrite the drafts and discussed with the specific information with my supervisor and the newly graduates.

Day 58 - Learnt about the balance sheet of the bank. Operation manager assigned me to recheck the balance sheet, so made sure if the assets are equalized to liabilities.

Day 59 – Had some family emergency, so I took leave for 2 days.

Days 61 – customer survey

Days 62 – I prepared questions for people I would be asking tomorrow at meeting.

Days 63 - Meeting at head office; discussed the potential outcomes throughout the internship period.
Days 64 - Finally dispatched all the records of quality of service, customer feedback collected throughout the internship program by me and recommendations to head office.

Days 65 – Last day as an intern. They did not let me work. Had valuable advises from all.

In conclusion, the internship experience has taught me neither connecting alone nor excelling at daily task, but the combination of both which indicates a right balance.
Date: September 18, 2017

How you represent The City Bank –

**Dress Code:** Culturally and professionally befitting dress. Shocking or something jazzy is being discouraged.

**Shoes:** Females must avoid fancy footwear.

**Dirty Dress:** Not allowed.

**Heavy Make-up:** Female employees should avoid heavy make-up.

**Clean eyes:** Eyes must be clean. Check corners of eyes carefully.

**Hair perfectly combed:** Hair should be kept properly and perfectly combed. Hair condition should be healthy and dandruff-free. Employees should never comb their hair in front of the customers. Female employees should keep hair neatly tied and bunned.

**Use of accessories:** Females should not use excessive accessories (earrings, bracelets, bangles etc.) that look unprofessional.

**Nails:** Both finger and toe nails should be clean, properly cut and managed.

**No bad odor:** Employees should wear perfumes appropriately so that there is no body odor.

**No nose hair:** Employees should trim nose hair regularly. Research says, nose hair is a "serious offense" particularly towards female customers.

**Clean eye glasses:** Specs should be clean so that eyes are properly visible.

**Hair Color:** Shocking hair color (like pink or purple) is not allowed.

**Colloquial language:** Not allowed in front of customers.

**Foul language:** Not allowed at all.

---
